# Visual Enterprise Architecture

## See your business right

By leveraging the leading process modeling tool in the industry, VEA enables customers to better manage their support for business requirements. Years of experience coupled with superior training mobilization will support you and your clients in the use of industry process reference frameworks, synchronization and analysis to succeed in less time and improve returns. VEA's Oracle services will speed your process innovation and narrow your company's "strategy to execution" gap.

## Oracle BPA Suite

The Oracle Business Process Architect Suite (BPA) provides comprehensive modeling, analysis and simulation capabilities for enterprise wide business processes. Oracle BPA supports enterprise architecture, process improvement and change management, driving the alignment of BPM and SOA initiatives. Full integration with the Oracle SOA Suite provides closed loop BPM capability. This enables business analysts and developers to closely collaborate throughout the entire BPM lifecycle using the best tools to meet their specific needs.
